## **Boujonnen Lavi - Videography and Photography Services**

### **I. Background Information:**

**Fonkoze Foundation:** The Fondasyon Kole Zepòl (Fonkoze) is a Haitian non-profit organization dedicated to promoting economic inclusion in rural areas, particularly among women. As part of a three-organization family, Fonkoze provides financial and non-financial services to empower Haitians to escape poverty. Boujonnen Lavi is a comprehensive strategy developed by Fonkoze to address food insecurity and livelihood challenges, focusing on a multi-sectoral response that includes food assistance, livelihood support, and income-generating opportunities.

### **II. Project Background and Summary:**

#### **A. Description of the Problem and Context:**

**Recent Challenges:** Haiti has faced significant challenges, including the assassination of President Moïse, kidnappings, natural disasters, and fuel shortages.

**Earthquake Impact:** The South Department experienced a devastating 7.2 magnitude earthquake in August 2021, resulting in over 2,200 casualties, damaged infrastructure, and USD 1.5 billion in damages.

**Food Insecurity:** 44% of the population (4.3 million people) are experiencing acute food insecurity. The South Department is classified as "crisis" and "urgent" levels in the IPC survey.

**Poverty and Malnutrition:** More than 99% of families in the targeted region live in extreme poverty. Malnutrition, especially among children and pregnant women, is a pressing issue, with 52,000 reported cases in Haiti.

**Agricultural Challenges:** Low agricultural productivity contributes to reliance on various income sources, making it difficult for households to secure reliable incomes to purchase food.

**Multidimensional Poverty:** 60% of Haitian households lack access to at least three of seven basic well-being characteristics, including education, sanitation, clean water, energy, housing, and food security.

**B. Evaluation Objectives:** The Boujonnen Lavi project aims to document the impact of the intervention on food security, livelihoods, and overall well-being of the population in the South Department. The video and photo documentation will focus on success stories, challenges faced, and the effectiveness of the multi-sectoral response.
